THE LEGENDARY 1943 "COPPER" CENT

Bronze Lincoln Cent. 1943. Almost Ex. Fine; a faintly lustrous golden-brown color. Shows almost imperceptible evidence of edge filing (not discernible from either obv. or rev.). An impression from the 1943 Lincoln cent dies struck upon a left-over 1942 bronze alloy planchet, inadvertently at the Philadelphia mint, prior to Feb. 27, 1943 (when the first delivery of the steel cents was made). Obviously, a few 1942 bronze cent blanks were left in one of the hoppers, and coined along with the steel ones. This famous rarity and the similar 1944 "steel cent" are the only mint errors known struck on left-over planchets from a preceding year, and are not "freaks" or "mint errors" in the usual numismatic sense, as both are legal tender, as much so as any other U. S. cent. The law passed by Congress, December 18, 1942, authorizing cents to be coined of low carbon steel with a zinc coating, did not alter or rescind earlier legislation. This coin (and its 1944 steel counterpart) will eventually be recognized as probably the rarest U. S. cents struck and issued for circulation. It has been discredited within recent years by both ignorance and a profusion of plated steel cents and "home made" replicas. This is the William Benzinger specimen, found in circulation, circa 1958. Accompanied by lab tests and a letter of authentication from Mike Kolman to Mr. Benzinger. Unconditionally guaranteed.... 875.00

Half Dime. 1838. Small, delicate stars. Ex. Fine/AU. Very rare and unusually fine..... 57.50

Quarter. 1853/2. Strictly Very Good. The rare "no arrows" variety. Sold high in 1940!... 63.50

Silver Dollar. 1855. Just about Unc. Usual uneven strike; minor signs of obverse handling. Only 26,000 minted. Like the last greatly underrated; this date has always been hard to find 115.00

Trade Dollar. 1876. Extremely Fine plus. Reverse rim nick. Not a "Hong Kong" import! 13.00

Gold Dollar. 1858 "D." Strictly Very Fine. The numeral "5" in date weak as usual, and there is a minor edge defect as made, but this piece compares favorably with lot #39 in the recent Wolfson sale at $525. Of the 3,477 struck, only a couple of dozen probably exist 390.00

Three Dollars. 1879. Extremely Fine. Only 3,000 regulars, 30 proofs made. A bargain at 245.00

Half Eagles. 1834. New type; no motto. Crosslet 4. Better than VF. Very rare..... 235.00
1837. Small date. Clapp 3 (R-7). Strictly Very Fine and bold. As rare as the last!.. 80.00
1840. Broad border variety. Not quite Very Fine, but really rare 67.50

Eagles. 1889. Ex. Fine/AU; choice. Only 4,440 regulars issued. Still a "sleeper"..... 190.00
1894 "S". About Extremely Fine; lustrous. Small coinage of 25,000 pieces..... 90.00

Pattern Gold Dollar. 1859. The Paquet design in bronze. A.W. 283; Judd 256. A dull proof from the great Brand coll., valued in Judd at $350. Of the greatest rarity and importance 177.50

So-called Dollars. 1909. 1 Daalder. Henry Hudson. Kenney 73. Gold. Matte Proof. Rare.. 72.50
Similar 1809-1909. ONE TRIP. Robert Fulton. Kenney 79. Gold. Matte Proof; a slightly imperfect strike (as made), but a "gem." Extremely rare, more so than the last in spades! 97.50

Canadian Jeton. 1755. Argonaut's vessel. Breton 515. Copper original. Ex. F. Now rare 32.50

Canadian Token. 1838. Bank of Montreal "Sideview" Penny. Breton 523. Very Fine and bold, but holed at top, and with a few small obv. digs about the hole. Probably can be restored. RRR 37.50

Canadian Half Dollars. 1902. Tarnished, dullish Unc., but free from rubbing. Underrated! 245.00
1903 "H." The usual dull, but lustrous Unc., softly struck as almost always. Not a "gem," by any means, but very few of the Edwardian coins ever are, particularly this rarity 375.00

THOSE PUFFINS AGAIN

BY

S. EVERETT PHILLIPS, A.N.A. No. 27751

A London financier, Martin Coles Harman, in 1927 purchased Lundy Island, which lies at the mouth of Bristol Channel. Claiming sovereignty, he issued tokens in puffin and half puffin denominations but shortly thereafter was taken into court by the British authorities.

An appeal to the King's Bench Division by Harman from the trial court in Devon ruled against his contention that Lundy Island was not a part of Great Britain. The following opinion is reported in Vol. 47, *The Times Law Reports*, pp. 219 and 220, and was rendered on January 13, 1931. This is the first time the document has appeared in a numismatic magazine, so far as we know.

K.B. Div. } 1931.
(Lord Hewart, C.J., Avory and MacKinnon, JJ.) } Jan. 13

HARMAN v. BOLT.*

Justices – Jurisdiction – Lundy Island – Whether part of Great Britain.

On a charge of an offence on Lundy Island against s. 5 of the Coinage Act, 1870, the justices for the Bideford Division of Devon held that they had jurisdiction and convicted the defendant, in spite of his contention that Lundy Island was not part of Great Britain.

Held, that there was evidence before the justices to support the conclusion that Lundy Island was part of Great Britain, and their decision must be affirmed.

Semble, if the justices had found the contrary, the Court would have reversed their finding on the ground that there was no evidence to support it.

This was a case stated by justices for the Bideford Division of Devon.

The appellant, Mr. Martin Coles Harman, who was the owner in fee simple of Lundy Island, was charged on April 15, 1930, on an information preferred by the respondent, Police-Superintendent William Bolt, that on a date unknown between November 14, 1929, and March 5, 1930, in the Island of Lundy, he unlawfully issued as a token for money a piece of metal of the value of one halfpenny contrary to section 5 of the Coinage Act, 1870. The justices convicted Mr. Harman and fined him £5 and 15 guineas costs.

The following facts were proved or admitted. The appellant was the owner in fee simple of Lundy Island, situated some 12 miles from the coast of Devon and some 28½ miles from the Welsh coast. No rates, taxes, or duties of Customs and Excise had in fact been levied or collected by the Crown or the Imperial Parliament in the Island of Lundy.

The King's Judges had exercised jurisdiction over the island in that in the year 1321 the justices itinerant in Devonshire heard and determined a dispute relating to the ownership of the island. There was no evidence before the justices of any subsequent fact ousting the jurisdiction. On one occasion—in 1925—a coroner's inquest was held in the island, when the coroner for North Devon held an inquest on a body found drowned off the coast of the island. The appellant's predecessor in title entered a protest against the holding of that inquest by the Crown, but the inquest was nevertheless held.

On December 18, 1871, one Charles Treleven was arrested on the island by a police-constable of the Devon Constabulary under a warrant signed by a justice of the peace for the County of Devon, and was brought before the Devon magistrates on a charge of murder. The appellant's predecessor in title, Mr. William Hudson Heaven, protested against the execution of that warrant on the island. In 1897 two men were charged before the Devon justices on a charge of stealing copper from a wreck on Lundy Island, and one of them was committed for trial to the Devon Quarter Sessions. Four inhabitants of the island, including the appellant, were on the register of Parliamentary electors for the polling district of Instow, in the county of Devon.

*Reported by J. W. Hall, Esq., Barrister-at-Law

The justices had before them correspondence which passed in 1871 between the Home Secretary, the Chief Constable of Devon, and Mr. Heaven. The appellant also put in evidence an agreement dated November 25, 1929, between himself, the Board of Trade, and the Corporation of Trinity House relating to the establishment of a look-out on Lundy Island. A copy of the last edition of the Official List of Courts of Summary Jurisdiction published by the Home Office in 1913 was put in evidence. Applications for old-age pensions by persons resident on Lundy Island had been entertained by the authorities for the county of Devon. On November 19, 1918, the justices for the county of Devon appointed a special constable for the island.

On June 6, 1929, the appellant gave an order to the Mint, Birmingham, Limited, for 50,000 bronze tokens about the size of a penny, and a similar quantity about the size of a half-penny, and these tokens were delivered to the appellant, who, between November 14, 1929, and March 5, 1930, issued them on Lundy Island as tokens for money. They were not issued by or with the approval of his Majesty's Royal Mint.

The appellant contended that Lundy Island was situated outside the territorial waters of the United Kingdom and was not within the body of the county of Devon but was outside the realm for all practical purposes, and that he had the right to exercise such rights as he thought fit on the island, that the justices had no jurisdiction, and that the information was misconceived. Apart from raising these contentions, the appellant refused to plead to the information and took no part in the proceedings before the justices.

The respondent contended that the Court had jurisdiction, and that the offence had been proved.

The justices were of opinion that they had jurisdiction. They found the charge proved and convicted the appellant. The question of law for the Court was whether their determination that they had jurisdiction was correct.

Puffin, obverse and reverse

Half puffin, obverse and reverse

Mr. Harman appeared in person; the Attorney-General (Sir William Jowitt, K. C.) and Mr. Wilfrid Lewis appeared for the respondent.

Mr. Harman said that it was quite true that he had issued on Lundy Island coins called "puffins" and "half-puffins." The puffin was a bird very common on Lundy Island, the very name of which meant "Puffin Island," "Lunde" being Icelandic for "puffin." The Lundians usually referred to the mainland as "the adjacent island."

The importance of Lundy Island was not to be gauged by its mere size or population. Its services to navigation had been enormous. So long as it was reasonably well governed the mainland had not interfered but the mainland authorities repudiated all responsibility when anything really called for intervention, such as the murder of the entire population.

The LORD CHIEF JUSTICE – Does that often happen?

Mr. Harman – It has happened two or three times in the past.

MR. JUSTICE AVORY – The population of what? Rabbits?

Mr. Harman – There are about 1,000 rabbits to every human being, but the residents number about 45, apart from visitors. Lundy pays no rates, taxes, or Customs duties, and that is right, because it receives nothing from the mainland. I claim that Lundy Island is a vest-pocket size self-governing Dominion. We are all loyal subjects of the British Empire, and I desired that this case should be referred to King George for his Majesty's decision.

Turning to the findings in the case, Mr. Harman said that the case in the fourteenth century could not be relied on by the Crown, whether it was referred voluntarily to the Judges to decide a matter which could not be decided on the island, or whether the Judges dealt with it in the normal course, for the decision was that they could not give a judgment which could not be enforced on the island. As to the statement that four persons including himself were on the Parliamentary register, the Conservative agent was invited over for a game of cricket and went home and got the islanders put on the register. A form was sent every year, and the names of those who had died or removed were struck off, but no new names were added, and the number of electors was diminishing.

MR. JUSTICE MACKINNON – If I addressed a letter to you at your house on Lundy Island, who would deliver it? – I should.

MR. JUSTICE MACKINNON – When I went over to the island once, I understood that it was the post boat which took me. – That must have been some years ago.

MR. JUSTICE MACKINNON – Yes, it was in Mr. Heaven's time.

Mr. Harman–I dismissed the G.P.O. and I issue my own stamps. I convey my letters, bearing these stamps, to Instow post office, where they must be stamped with ordinary English stamps, and I collect at Instow the letters addressed to the island and distribute them.

It was most unfair, said Mr. Harman, to cite against him things which happened during the War, such as the appointment of a special constable; for Lundy, like other parts of the Empire, did anything required to assist in the prosecution of the War, and every man who left Lundy to go to the War was killed.

The police came over disguised as trippers. Why, if they were entitled to come, did they not come over in uniform and state their mission? When they last came, 40 years ago, they were hustled into the sea. Who was in fact governing Lundy Island, if not he and his agent?

MR. JUSTICE AVORY – Who is the Sovereign of Lundy Island? – I am; but the island is a self-governing Dominion of the British Empire, recognizing King George as its head.

The Lundians, said Mr. Harman, were happy and hard working and there were no unemployed on the island.

With regard to Treleven in 1871, the case stated was inaccurate. Mr. Heaven refused to allow him to be arrested on the island, but as he could not give him a fair trial on the island he escorted Treleven to Ilfracombe, and there still maintained that the police could not arrest one of his subjects, but made himself responsible for Treleven's appearance to take his trial.

The ATTORNEY-GENERAL said that Lundy Island, from what they had heard, was a sort of Utopia. But why should the people be more happy with "puffins" and "half-puffins" bearing Mr. Harman's head than with pence and halfpence bearing King George's head? Many modern statutes and orders recognized Lundy Island as part of the county of Devon. He referred to the County Courts Order of 1899, to the Schedule to the Representation of the People Act, 1918, and to the Wild Birds Protection Order, 1930 (S.R. and O., 1930, No. 957). The Territorial Waters Jurisdiction Act, 1878, declared that Great Britain included "the adjacent islands."

This seemed to be one point which the income-tax collectors had overlooked; it might be that that would now be put right.

Mr. Harman, in reply, submitted that the making of Acts of Parliament and Statutory Orders relating to Lundy, without the consent of the people of Lundy, and declaring it to be part of the county of Devon, "cut no ice," any more than an Act of Lundy declaring Devonshire to be part of Lundy Island would "cut any ice." If the income-tax authorities sought to include Lundy Island, he might be able to recover some thousands of

pounds if he could bring Lundy Island, which was run at a loss, into his general tax position.

The LORD CHIEF JUSTICE, in giving judgment, said that it was a very entertaining case and had been very ably argued by the appellant. His argument was that he was the owner in fee simple of Lundy Island, that it was situated outside the territorial waters of Great Britain and was not part of the body of the county of Devon, and that the information was misconceived. That seemed to be a question of fact, and the question was whether there was evidence to entitle the justices to come to the conclusion to which they came. He thought that there was such evidence. In particular, there were four of the inhabitants, including the appellant, on the Parliamentary register. The attention of the Court had been called to a number of statutes and orders in which Lundy had been treated, sometimes by Parliament and sometimes by the executive, as part of the county of Devon. The able argument of the appellant was that all this had been done without the express consent of the inhabitants of Lundy, but he (his Lordship) did not think that that was an argument to which the Court could listen in this case, and the appeal must be dismissed.

MR. JUSTICE AVORY and MR. JUSTICE MACKINNON agreed.

[Solicitor – The Treasury Solicitor.]

SIERRA LEONE PLANS DECIMAL CURRENCY

Sierra Leone, which became an independent and sovereign member of the Commonwealth of Nations on April 27, 1961, plans to establish a central bank. Sometime in the second half of 1963, the Minister of Finance has announced, the monetary system will be decimalized.

The new monetary unit will be worth U. S. $1.40 (ten shillings) divisible into one hundred cents. The present West African pound will be exchangeable for two of the new units.

Today's currency is that of the West African Currency Board which issues notes of 10s, £1, £5; coins of 2s, 1s, 6d in nickel, 3d, 1d, ½d in copper-nickel, and 1d, ½d in bronze.

CALL FOR NOMINATION OF OFFICERS

The election of A.N.A. officers will be held this year. They will be elected for two-year terms.

Under our bylaws, a President, First Vice President, Second Vice President and six Governors are to be elected. The successful candidates for President, First Vice President and Second Vice President also serve on the Board during their term of office, making a total of nine members serving on the Board of Governors.

Nominations of properly qualified candidates may be made in writing by any member, club or individual, in good standing and must be sent to the office of the General Secretary on or before May 24, 1963, when nominations will close. The names of the candidates who have agreed in writing to accept, if elected, the offices for which they were nominated will be published in *The Numismatist.*

The bylaws further provide that the ballots cast shall be tabulated by an independent auditing firm. This year the CPA firm of Troupe, Kehoe, Whiteaker and Kent of Kansas City, Mo., has been selected.

Each member entitled to vote will receive a ballot listing the nominees for the various offices. After registering his choice, the ballot is to be mailed by each member directly to the above mentioned accounting firm and received on or before July 24, 1963.

The new officers will assume their duties at the last session of the forthcoming convention at Denver. I am sure that with your aid, most able, worthy, and capable officers will be selected to lead the A.N.A. to greater growth and progress in the following two years. — C. C. SHROYER, President

Boston Fed Exhibit

Two exhibits entitled "The Evolution of United States Paper Currency" have been designed and created by the Federal Reserve Bank of Boston

for loan to member banks. The need for and popularity of numismatic displays is indicated by word from the Bank that it has requests which will tie-up both exhibits into 1965.

Intended to stress the centennial of the National Banking Act which became law on February 25, 1863, the exhibit has seven panels showing examples and describing briefly the major forms of paper currency from Continental to Federal Reserve bank notes. Most of the panels are ornamented with vignettes from old state bank notes, which help to make the exhibit very attractive. According to information from Mrs. Christina MacPherson, President of the Cheshire County Numismatic Society, the exhibits were in two banks in Keene, N. H., during December.

Appointments

Increases in the staffs of *Numismatic News* and *Coin World* continue. Clement F. Bailey, Plant Manager of American Microphone Company and contributor to *Numismatic News, Coins,* and the defunct *Numismatic Times and Trends,* will do a regular column called "This and That" on the light side of coin collecting for the *Numismatic News.* Gunnar E. Sundin of the Harvey, Ill., *Tribune* is a new associate editor of the *Numismatic News.*

Coin World's editorial staff is also increased by two, Russell Rulau and Stanley Fifer. Rulau, leaving the military forces after eighteen years' service, has written articles for several numismatic publications and was recently named Editor of the Token and Medal Society journal. Fifer, who has served on the staffs of the Mansfield *News Journal* and the *Smart Shopper,* will act as liaison man to coin clubs and their officials.

The Heart of America Numismatic Association of Kansas City, Mo., has contributed over $250 to the Lewis M. Reagan Memorial Foundation, including the auctioning of nine coins which brought in $130 recently. Aurora Centennial Medals

Aurora, Ontario, will celebrate its centennial during the week of June 30-July 6 and has issued a commemorative medal in bronze and silver. The medals are slightly larger than a silver dollar and considerably thicker, depicting a locomotive of 1853 vintage on one side and the flames of the rising sun surrounding AURORA / 1863-1963 / CENTENNIAL / CANADA on the other. The locomotive alludes to the first train in Upper Canada which ran the 25 miles from Toronto to Aurora on May 5, 1853. The sun rays honor Aurora, Grecian goddess of dawn, after whom the town was named in 1863.

The bronze piece is actually a token since it is redeemable for $1 by Aurora merchants during the centennial week. There is also a leather "Lucky Buck" about the size of a dollar bill, finished in grey and printed on one side but with the calf hair still on the other side. This is strictly a souvenir and a reminder that leather tanning and shoe manufacturing are the principal industries of Aurora.

Rod V. Smith, a former councillor of Aurora, is a member of the Centennial Committee and the originator of the numismatic items. All materials and workmanship of the medals and the leather "buck" are Canadian, and proceeds from sale of them are to be used in furnishing a new public library now under construction.

The bronze token and the "Lucky Buck" are priced at $1.00 each, while the sterling medal is $7.00, postpaid anywhere in the world. Over 1500 of

The bronze token differs from the silver medal in that GOOD FOR ONE DOLLAR — JUNE 30TH-JULY 6TH 1963 is omitted from the latter.

the bronze and about 100 of the silver pieces were sent out by the end of 1962. First striking was 5,000 bronze, 200 silver and five gold, the latter priced at $125.00. Designed by Smith, stamping was by the Wellings Mfg. Co., and engraving by Ben Ireland. Orders with remittance should be sent to the Centennial Committee, Box 112, Aurora, Ontario, Canada.

Wooden "Nickels"

The Hopewell Coin Club still has a few wooden "nickels" for sale at 10¢ each. These tokens are of two different types of the same denomination and may be ordered from the Club at P. O. Box 375, Hopewell, Va.

seum of the Bank of Korea in Seoul. These slides were made from color photos, obtained by Alan D. Craig while he was in the Far East, 1950-1952. Letters came recently from the Bank of Korea and the American Embassy in Seoul thanking the Association for the set of slides and lecture notes.

In his letter of December 5, 1962, Bank Director Won H. Chung says "These items have been duly entered on the records . . . of the Bank of Korea as a gift from the Visual Education Committee, American Numismatic Association. May I say how grateful we are for these interesting additions to our numismatic data and how much we appreciate your interest and study in Korean coinage."

The set was produced by Glenn Smedley, Michael Dolnick and Craig. John J. Pittman is Chairman of the Visual Education Committee. The new set is available to clubs from the Custodian of Slides, Michael M. Dolnick, 6720 N. Seeley Ave., Chicago 45, Ill.

Obituary

LARS DELAGERBERG, A.N.A. NO. 5816

Lars deLagerberg of Wading River, Long Island, N. Y., died in his sleep in the early morning of October 13. A retired architect, he was born in New Jersey in 1887 of an old and distinguished Swedish family. He had been a resident of Wading River since 1942, was one of the founders of its Historical Society and an active worker in virtually every civic organization of the village.

Mr. deLagerberg had an active interest in numismatics and his collection of coins and medals was extensive. Only last year he contributed "Notes on Colonial Money" to the A.N.A. Papers Committee, and received his 25-Year Membership Award at the Detroit convention. His father (A.N.A. No. 1014) was a member of the Board that negotiated the 1912 Federal Charter, and had original papers concerning it. By his father's instructions, these papers were turned over to the A.N.A. at the Detroit convention.

Mr. deLagerberg was considered an authority on the early architectural history of New Jersey and, in 1956, published an extensive volume, "New Jersey Architecture, Colonial and Federal," which won acclaim for him.

Besides a host of friends, he is survived by his devoted wife, Lucy, and one brother, Guy, who resides in Connecticut. — GBS

For the Good of Numismatics and the A.N.A.

A.N.A. Officer Nominees

One of the rewards of freedom and one most proudly kept is the right of every American citizen to vote for the man of his choice for public office, freely and secretly. For this privilege men have fought and died throughout the centuries. Because of it, qualified leaders of long experience have been elected to high offices where they serve so well.

The principle of full and free elections extends through all strata of our society, including associations and small private groups. These include your own local coin club, state and regional societies, and your national numismatic association.

Your national group, the American Numismatic Association, gets the official call of its President in this issue of *The Numismatist* for the nomination and election of the Officers and Governors who will shape policy and guide the A.N.A. for the next two years. As various men are nominated for President, First Vice President, Second Vice President and Governors, their names and their club nominees will be listed in your magazine for all to see.

Ballots will be distributed to all members in good standing well before the A.N.A. convention and at the same time *The Numismatist* will carry brief biographical sketches of each candidate. The information given will be primarily his numismatic history; numismatic organizations of which he is a member, along with offices of importance he has held in them; or other major areas of activity. This is aimed to help you, the voter, make up your mind as to the candidates' qualifications, which will run from poor to excellent. At the same time each candidate can be assured of fair treatment in presenting his case in a quiet and orderly manner.

So, during this nomination period, clubs and individuals are urged to make nominations only after careful consideration. When balloting time arrives, exercise the same care in casting your vote. — Elston G. Bradfield

NATIONAL COIN WEEK, APRIL 27-MAY 4

Less than two months remain to plan and set up your National Coin Week exhibits. Information has been mailed to all A.N.A. clubs and will be sent to individual A.N.A. members upon request. If your club has not received the material, please notify the NCW Chairman at once.

Here is a check list to use in planning participation in NCW by your club:

1. Appoint a Chairman or Co-Chairmen for National Coin Week.
2. Reserve key display spots in your city.
3. Ask club members to plan talks in schools, service clubs, and other gatherings.
4. Plan a campaign to obtain new club and A.N.A. members. Have information on National Coin Week printed for distribution during the week.
5. Chairmen should advise their clubs on the type and number of displays to be used. Stress the subject of making an effective exhibit.
6. Try to obtain an audience with the Mayor and Governor of your city and state asking for an official proclamation of National Coin Week, April 27 to May 4, 1963. Sample proclamations will be mailed by the National NCW Chairman upon request.
7. During National Coin Week take pictures of all displays, clip newspaper references to NCW, and have your radio and TV stations supply you with news releases used. Gather all information on your club's endeavor and prepare a report for the judging committee.
8. The reports must be received by the judging committee not later than May 25, 1963. Mail them to the Awards Chairman, R. W. Shannon, 1304 Symons, Richland, Wash.

The award winners will be announced in the July *Numismatist*. Will your club's name be included?

Good luck.

CENTRAL STATES CONVENTION IN CHICAGO

The Central States Numismatic Society's 1963 convention is to be held at Chicago, Ill., in the Sheraton-Chicago Hotel, 505 N. Michigan Ave., April 26-28. The Chicago Coin Club is host and Harry X Boosel, 2nd Fl., 65 E. South Water St., Chicago 1, Ill., is General Chairman.

The Sheraton-Chicago was selected because it offers the largest public spaces where the convention can be held on adjacent floors. Also, it is located at the edge of the Loop and is close to all of the city's activities. Reasonable rates, too. Free parking for registered guests. And you can drive right into the hotel, the auto entrance being on the lower Michigan Ave. level near Grand Ave. Make reservations directly with the hotel which promises to accommodate all CSNS guests who reserve space in advance.

Over ten thousand square feet has been set aside in one room for exhibits alone. Get your requests for space in early to J. Thomas Nolan, 720 Buena Terrace, Chicago 13, Ill., the Exhibit Chairman. First place winners in all classes will be pleasantly surprised with their awards. In 1961 the Chicago show started something new in exhibit awards, and Chairman Nolan promises something different again.

The bourse will be large, but not too large. Dealers from all over the country will attend, and from outside the country, too. Some space may still be available when you receive this but it is going fast. If interested, write to Bourse Chairman Philip J. More, 1633 Monroe St., Evanston, Ill.

Auctioneer is the Rare Coin Company of America, 77 W. Washington St., Chicago 2, Ill. The auction shows every indication of being worthwhile. Write the auctioneer for a catalog.

By all means, bring the ladies. A hospitality room has been set aside for them, with women from the Chicago Coin Club as hostesses. Mrs. Marjorie Baker is Chairman of the Ladies Activities committee.

In line with last year's CSNS convention, there will be an educational program under the direction of Glenn Smedley. You should attend this event if at all possible.

So — make early reservations at the hotel. Do it now!

Remember — Chicago is the "Numismatic Cross Roads of the World. Eventually Everything and Everybody Comes to Chicago."

New York World's Fair, 1939-1940

By

Ernest Weidhaas, A.N.A. No. 11589

Copyright 1963 by Ernest Weidhaas

THE CLOUDS of World War II were already looming darkly over the horizon, when on April 30, 1939, the New York World's Fair was born. It was an ethereal empire, established by the conquest of Herculean obstacles. Strolling amid its magnificent splendor, few realized that this fairyland had formerly been the site of the Corona Dumps, twelve hundred acres of dismal marshland, in which the debris of New York City had been deposited for many years.

The magic wand which had brought about this transformation was the expenditure of over a hundred and fifty million dollars; the magicians, a group of public spirited citizens, headed by Grover A. Whalen, who formed the New York World's Fair Corporation. This great exposition lived in glory through the early part of the worst catastrophe that has ever afflicted civilization, but its highly idealistic objective of promoting peace and freedom among all nations, in the "World of Tomorrow," was soon lost in the horrors and hatreds of war.

When it died on October 27, 1940, its only bequest to posterity was a long lingering twilight of pleasant memories, and a few tokens to attest its former existence. The following tabulation of these items was undertaken as a memorial to the happy interludes, the hours enjoyed in the peaceful atmosphere of the Fair.

Contrary to the usual procedures followed at most world expositions, the New York World's Fair authorities did not officially present any medals to distinguished visitors, nor did they give any numismatic awards to exhibitors. However, a few presentation and award medals were issued by semi-official and private groups, the foremost being the Denmark Presentation Medal, the Whitehead and Hoag Presentation Plaque, the Poster Competition Award Medal, and the Academy of Sports Golden Laurel Award Medal. All of these are extremely rare.

Almost every one of the other items listed could have been obtained by a visitor at the Fair, either as gifts from the various exhibitors, or by purchase at nominal cost, so theoretically it should be possible to form a complete collection of them with ease. Actually a number of the most insignificant pieces will be found to be so difficult to obtain, that acquiring them is a formidable challenge to the most ardent collector.

This listing is roughly divided into four separate categories:

Section One – Medals, Plates I to XII, Numbers 1 to 64.

Section Two – Pseudo-medals (lucky pennies, enclosed cents, elongated cents, advertising tokens, exhibitors' give-aways), Plates XIII to XXII, Numbers 65 to 135.

Section Three – Badges and Special Day buttons, Plates XXIII to XXVIII, Numbers 136 to 187.

Section Four – Miscellaneous, pins, charms, semijewelry, Plates XXIX to XXXIII, Numbers 188 to 240.

Many minor medals were made of alloys composed principally of aluminum, copper, zinc and tin in various combinations. The exact composition of these alloys was often a trade secret, and some were given fanciful names, alluding to their golden brilliance when uncirculated. As no name has been definitely accepted, they are here recorded as brass.

The illustrations are all actual sizes of the specimens. Dimensions are quoted in millimeters.

Number 4 **GOLDEN LAUREL AWARD** **Plate III**

Large medal made with five irregular openings in its central part, giving it the form of a laurel wreath with a wide folded ribbon attached to its inner sides, a small Trylon and Perisphere connecting the upper part of the ribbon to the wreath. The ribbon bears the legend, AMERICAN ACADEMY OF SPORT / GOLDEN LAUREL / NEW YORK WORLD'S FAIR. On the lower part of the wreath there is a heart shaped shield, with emblem showing a small lamp, below which a bare arm, the elbow at right angle, the hand forming a clenched fist. Reverse is blank.

Gold-plated bronze, 106 mm.

Note: The medal was produced by the Medallic Art Company, and awarded by the American Academy of Sport for the greatest achievement during the preceding year in the world of sports. It was designed by Henry C. Kreis, struck by the Medallic Art Company, and distributed at the Manufacturers Trust Company exhibit.

When restrictions were removed, it rose immediately to $56.00, and within a year sold for $93.00 per ounce, and reached a high of $105.00 in 1956. At this price, almost all of these medals were melted for their metal content, and any remaining must be classed as extremely rare. (Baker & Co. is a division of Engelhard Industries, Inc.)

The entire lot was returned to the melting pot, and it is believed that not a single specimen escaped. Note: This magificent medal was struck for the Czechoslovakian Consulate by the Medallic Art Company, and was distributed to sympathizers who contributed to a fund raised to continue the Czechoslovakian Exhibit at the Fair, after the Government had been destroyed by the Nazi invasion. The sculptor was Mario Korbel. Regrettably, its elaborate design did not allow space to mention the New York World's Fair, for which it was created.

FINLAND'S NEW CURRENCY. A new monetary unit with a value a hundred times the old is designated the markka and its hundredth part, the penni. The change was effective January 1, 1963. New bank notes and coins will closely resemble the former issues in design, color, size and other physical characteristics. Since 1931, when the requirements of the gold standard were suspended, the gold value of the markka has been on a provisional basis. Under the new Act, the old gold standard is formally abandoned.

Rumors persist that Liberia will establish its own central bank and create its own national currency.

PROMOTE DENVER A.N.A. CONVENTION

Both the Denver Coin Club and the Federal Coin Club are actively engaged in planning and publicizing the A.N.A. Denver convention August 7-10. Pictured at left, l. to r., General Chairman Dan Brown and his two Co-Chairmen, Col. S. H. McKinnon and John A. Howell. In right hand photo, l. to r., Publicity Chairman Rudy Weiss, Federal CC President; Registration Co-Chairman Esther Defabaugh, Federal CC Secretary, and Lucile Key, Denver CC Secretary.

WHAT OTHERS PUBLISH

Let's start off this month by referring to Clifford Mishler's latest numismatic venture, a periodical bearing an unusually long title, *1963 United States and Canadian Commemorative Medals and Tokens.* Actually it is a continuation of his excellent annual catalog having the same title, except that it will now come out twelve times a year. The January 7, 1963 number is of six pages, carries Vol. VI, No. 1, in deference to the first five annual listings. In size it is 8½" x 11", loose leaf and perforated for three-ring binder. Subscription is $6.50 annually, a little more costly than the previous annual catalogs but giving promise of living up to his aim of "providing information about, and articles on, medals and tokens other than those which qualify for our regular listings." This publication will not carry advertisements but is a reference work only. Sample copy is available from the Editor-Publisher at P. O. Box 187, Vandalia, Mich. We have been in this young man's corner ever since his first annual listing, and still are. Whether or not the new style is the proper one only time will tell. A trial subscription, however, is recommended for the serious medal collector.

The Essay-Proof Journal, Vol. XIX, No. 3, 1962. A. P. Bantham's "Ferdinand Schirnbock, Engraver" deals principally with the artist's philatelic work, although the statement is made that his bank note engravings have not been systematically recorded. Here is a challenge to an inquisitive mind in search of a project. Ralph R. Weaver's "Jacob Perkins, 1766-1849, Precious Metalsmith, Pioneer Inventor, Engraver and Die Maker" is continued from a previous issue. Reprinting, via instalment method, begins of "Remarks on the Manufacture of Bank Notes and Other Promises to Pay" by Keatinge & Ball, Bank Note Engravers. The Keatinge & Ball firm is perhaps best known for Confederate paper currency work.

It's been quite a while but Dr. Roy J. Popkin, whose main numismatic interest is that related to medicine, has once again written an article in his field: "Doctors Who Have Been Awarded the Congressional Medal of Honor," published in the December 29, 1962 *Journal of the American Medical Association.*

Centinel, October, 1962, carries "A Few Observations on Gold" by Michael M. Dolnick, "One Man's Opinion of the 1856 F. E. Cent" by John Maxim, and a description of the Cardinal Spellman numismatic collection written by Sister Mary Andrew, Curator.

Journal of the Token and Medal Society, September-October, 1962, starts a new series on British transportation tokens by H. L., continues "Cards and Tokens of Thomas L. Elder" by E. Smith, "Wright's American Store Cards" by J. J. Curto. Alaska tokens supplement by the Dethridges continues as does "Spiel Marken" by Messrs. Rulau, Fuld and Gould, and "Parking Tokens" by Duane Feisel. A new feature by Russell Rulau is called "Prices." Continued in the November-December issue are instalments on spiel marken, embossed or shell store cards, transportation tokens, Elder tokens, Alaska tokens. Arlie Slabaugh does a piece on a "Rambler Bicycle" medal and George Fuld writes a couple of pages on "Unusual Early Washington Medals." Has membership list.

International Banknote Society's quarterly magazine, Autumn, 1962, features a description, history and listing of Scottish banks which issued bank notes by James Douglas. Dr. Walter Loeb and Neil Shafer list Philippine bank notes engraved in the Bureau of Engraving and Printing in Washington. E. Philipson writes briefly on Tenino, Wash., emergency wooden money issue. Dr. Kupa Mihaly sums up Croatia's paper money of WWII period. Other shorts are "Notes of the Joint Distribution Committee of Cyprus" by David Atsmony, a once over lightly treatment of Southern state notes and Republic of Texas currency by R. Objoski, "Gem of Chinese Paper Money" by S. Loy.

Calcoin News, Winter, 1963. "Scottish Token Coinage" by R. Rulau; "Swedish Plate Money" by E. S. Ostrom; old newspaper story on the Columbian half dollar; piece on the Ormsby token by M. M. Gould. — ELSTON G. BRADFIELD

French currency unit became the franc on January 1, 1963, replacing the nouveaux franc. New coins of five, ten and twenty centimes are expected.

Angola will withdraw its fifty centavo coin from circulation March 15.

A, 1501 E. Mt. Airy Ave., Philadelphia 50, Pa. Coins will be photographed and returned as soon as possible, and a credit line will be given to anyone assisting.

COIN WITH A PEDIGREE

A single gold coin nestled in plastic in a large display case drew the attention of collectors and visitors at the recent Northeast Georgia Coin Show in Athens, Georgia. Known as the "Riley" gold dollar, it was displayed for the first time at the Athens show, together with a complete certified record of ownership of the coin.

Now owned by Jackson Bennett of Athens, Ga., the coin is an uncirculated Dahlonega gold dollar dated 1857. In choice condition, the coin has never left the boundaries of the State of Georgia since its gold contents were panned in the year 1857 from the creeks of Lumpkin County in the area of Dahlonega, Ga.

The history of the coin, which Bennett calls the "Riley" gold dollar, began with a man named Harrison W. Riley. He was a well known pioneer gold rush figure at Dahlonega (and according to an early owner of the coin, had a reputation for being a "tough hombre"). He never married, but was very fond of three nieces who lived in the Dahlonega area, and decided to give each a one dollar gold piece for Christmas in 1857.

Riley called in two of his Negro workers and told them to go out and pan enough gold to make up three gold dollars. They panned the gold, and with it Riley had three pieces, each a one dollar gold coin, minted at the U. S. Branch Mint in Dahlonega.

The niece to whom Riley gave this gold dollar was called Aunt Jo Whelchel, known as a very gracious lady. She left the coin to her only daughter, Miss Nannie Whelchel, who never married, and she left it to a relative, Mrs. Pearl Connor.

H. B. Cochran got the coin from Mrs. Connor in a trade. She did not want to sell the coin, but swapped it to Cochran for a country ham. Twenty years ago Cochran gave the coin to his son, Clarence Cochran of Rome, Ga.

In the spring of 1961 Jackson Bennett became the owner of this unique coin. "And here," said Bennett, "the history ends."

Widely known in numismatic circles for his research on Dahlonega gold and Templeton Reid gold, Bennett was General Chairman of the Northeast Georgia Coin Show. He organized the Athens Coin Club in March, 1961, and is currently serving as First Vice President. He has also served as President of the Atlanta Coin Club for two terms, and was Housing Chairman for the 1961 A.N.A. Convention in Atlanta.

After acquiring the "Riley" gold coin, Bennett was led into research tracing its history. Through extensive correspondence with former owners of the coin still living, step by step he traced the ownership of the coin and learned that the coin had never been taken outside the State. One owner, Mrs. Pearl Connor, moved to Atlanta from Dahlonega, but later returned to Dahlonega.

What present value does the coin have? It is still in choice, uncirculated condition, sharply struck. "It's priceless," stated Bennett.

And he's right. Who can place a price on a little gold coin which began as a small amount of gold dust panned from a Georgia creek, given as a gift of love in the shape of a small new coin, and cherished by a few Georgia folks along a trail of history? — MARGARET C. MCAULEY, A.N.A. 20085

DONATION FROM MEDALLIC ART COMPANY

A significant and historically interesting donation to the A.N.A. Medal collection has been received from the Medallic Art Co. of New York City. A process set of eight bronze pieces, showing the successive steps in striking the A.N.A.-C.N.A. Detroit convention medal, along with the plaster models of the medal, are included in the donation. Pretty Carla McConnell, Miss Saginaw, Mich. of 1962, displays the plaster model of the reverse along with four of the bronze pieces.

"**FOR THE PURCHASE OF PRODUCE** at Batavia, funds are obtained by the importation of merchandise and specie, and by the sale of bills on London. In February, 1836, bills on London sold at six months' sight, sold at the rate of twelve guilders per pound sterling; Spanish dollars being worth at the same time two and a quarter guilders each, or 225 guilders for a hundred dollars. Spanish dollars have been, at times, at an advance of 33 per cent.

"Accounts are kept in guilders and cents, one hundred to the guilder. All the coins in circulation are imported from Holland; but there is a bank at Batavia which issues paper. This bank was established in 1828, with a capital of two million of guilders, and is under the direction of a President, a Secretary, and three commercial directors, the first two being appointed by the King. It issues two kinds of paper; notes of from twenty-five to one thousand guilders, payable in silver; and notes of smaller denominations, payable in copper, which are denominated copper-paper. Before the issue of these notes, there existed a sort of treasury draft, which was converted into specie at broker shops, called 'Vervisselings kantor.'" — *Narrative of a Voyage Around the World, During 1835, 36, and 37,* by W. S. W. Ruschenberger, London, 1838, I, 395-396.

The **Western Reserve Numismatic Club** held its 495th meeting on January 9 at the Statler Hilton Hotel, Cleveland. All of the incumbent officers were re-elected for another term. The hundred and thirty in attendance at the January 14 meeting of **Missouri Numismatic Society** in Hotel Claridge, St. Louis, listened with much interest as member Joe Rataj narrated facts about U. S. paper money. He called attention to the "has been" series of 1928 one dollar silver certificate which carries the statement "This certifies that there has been deposited . . . one silver dollar . . ." in contrast to the corresponding statement on present issues that "This certifies that there is on deposit' etc. He described how paper is made by Crane & Company, with several built-in precautions against counterfeiting, for the Treasury Department. Other precautions include the special ink mixed by the Bureau of Engraving and Printing, and use of the intaglio process of printing all bills. He called our attention to the symbols on our bills, the most important being the Treasury Seal, and told us many things about them. This seal, which appears on all paper money issued since 1861, except the first three issues of Fractional Currency, is printed in several colors and also on other documents, publications and stationery. Joe's talk was one of those which make us realize the many facets of numismatics. President Page announced the chairmanships of permanent committees established by the recent revision of our by-laws. — BERNICE STEVENSON, Sec.

(Editor's note: For a fine article on the Treasury seals on paper money, see Wm. A. Philpott's contribution in the June, 1962, issue of *The Numismatist*)

A large turn-out of members and visitors to the December meeting of **Milwaukee Numismatic Society** enjoyed the A.N.A. color slides of Types of U. S.

Copper Coins. This is an excellent set of slides which adds to the numismatic knowledge of viewers. Three other sets of these slides have been shown during the year as part of our attempt to present all phases of numismatics through displays, informative talks and a fine selection of books in our library. Attendance at the December meeting proves that people will come out, even in the holiday season, if a good meeting is promised. Charles Opitz displayed and spoke on elongated cents; Ann Allen brought a sand "dollar"; Donald Handschke showed a copper token of the Ben Franklin Institute found in a roll of cents; and Walter Boeyer displayed a U. S. Victory Medal of World War I with all the possible (18) army bars attached. He also showed three British War Medals awarded to a nurse in Queen Alexandria's Imperial Nursing Service. The feature display and talk of the evening was by Gale Highsmith who, besides being a tracker of satellites, is a dedicated numismatist with a vast and diversified collection. His display was of bamboo religious scrolls from Sumatra. These mysterious items, written in an unknown script by priests, were a source of wealth and used for special occasions. They are rare, even in museums, but Gale displayed a case full in excellent condition. The Milwaukee club extends a warm welcome to anyone interested in the hobby to attend its meetings the third Wednesday monthly at the War Memorial Center. — WALTER BOEYER, Librarian

ADVERTISERS PLEASE NOTE ALL FOLLOWING CONDITIONS

All correspondence relating to advertising should be addressed to the Advertising Manager, S. W. Freeman, P. O. Box 591, Newport, Ark. Make all remittances payable to the American Numismatic Association.

No advertising accepted from minors.

Advertising Contracts: These are available, covering periods of three, six and twelve **consecutive months** for display space as listed in the above Table of Rates, and are necessary if the schedule of reduced rates is to apply. If the advertiser prefers not to accept the Contract, such reduced rates will be granted only upon payment in advance for the period desired.

References: All advertisers who submit copy for the first time are definitely requested to furnish therewith banking or other satisfactory references.

Available Space Units: Practical considerations restrict the allocation of space units to those listed in the above table. Any amount of space (subject to any current limitation) is available IF these units or a combination of them are used. Unless contrary instructions are given, copy will be cut if found too full for the space designated; if no designation is made, it shall be understood the amount of space is left to the discretion of the Advertising Manager.

Unless under contract, smaller units than one-half page accepted subject to available space in desired issue.

Deadline: Copy must be received by the Advertising Manager by the 5th of the month to insure insertion in the following month's issue.

Illustrations: All cuts to be provided by the advertisers, care being used to see that they do not exceed in measurement the limits of the space unit desired. The Advertising Manager, when absolutely necessary, will have engravings made from furnished photographs, at national rates, to be paid for by advertiser.

We cannot accept mats or stereos.

Miscellaneous: Please furnish copy **separately** from your letter of transmittal. Advertising copy included in the body of a letter usually has to be retyped for the printer; this should **not** be required. **Mail Bid Sales listing not acceptable.** It is also the policy of the magazine to limit its advertisements to those of numismatic character.

Preparation of Copy: Advertising copy should be prepared with **minute care.** Carelessness invites error – something which both advertiser and publisher are anxious to avoid. Use **only** one side of the sheet. Send **originals, not** carbon copies. **Use only paper of good quality, and not of extremely light weight. All copy must be typed, no handwritten accepted.**

In the absence of an Advertising Contract, when payment in advance for any number of consecutive months has been made, if change of copy has not been received by the 5th of the month for the next issue, the latest preceding advertisement will be run.

Advertisers may use a trade name, but, except in the case of an incorporated concern, the name of the proprietor or some other responsible person connected with the firm must also appear in the advertisement.

The right to edit copy, to require payment in advance, and to decline any advertisement is specifically reserved.

IT PAYS
TO COLLECT THE ORIGINAL PRESIDENTIAL ART MEDALS

PRESIDENTIAL ART SERIES

We proudly announce the availability of the new Hoover medal . . . seventh in the Presidential Art Series. The fine bas-relief sculpturing and the close likeness of President Herbert Hoover makes this commemorative medal a valuable collector piece. The obverse of the new medal bears a full bust of President Hoover. The reverse portrays an exact reproduction of the Presidential Seal.

The new Herbert Hoover medal is offered as follows:

Platinum (pure), 25 serially numbered pieces ..... 500.00 each
Silver (.999 plus), 6500 serially numbered pieces ..... 10.00 each
Bronze ..... 2.50 each

*Fill in coupon below for complete details on the availability of serially numbered silver medals.

The Presidential Art medals program consists of the three series of finely sculptured, high quality medals shown above. One medal will be issued each month, alternating among the series, until all three series are complete.

Practical size (slightly larger than a half dollar), serially numbered limited issues, and the fine sculpturing on these pieces assures their increasing value.

The Presidential Art Kennedy medal is the only privately issued commemorative medal bearing the President's likeness that is authorized by the President for public and advertising display.

THESE BRONZE MEDALS ARE NOW AVAILABLE FOR IMMEDIATE DELIVERY AT THE ORIGINAL ISSUE PRICE OF $2.50 EACH.

Rare Coins and Collections Wanted

TOP PRICES PAID

We have the money and we are willing to spend it! All over North America and Europe, Empire has a reputation second to none for paying top prices for collections and rare individual pieces. During the past few years, rarity after rarity has been handled by us: 1894-S dimes (three of the seven known specimens); 1838-O half dollar, 1876-CC 20¢, 1907 MCMVII Extremely High Relief $20, 1796 no pole half cent, 1884 trade dollar and countless other rare and often unique United States and foreign coins. How were we able to handle such a splendid array of numismatic treasures? Not because we accepted them on consignment for sale or auction, but because we were willing to go out and pay immediate cash for them, often bidding competitively against many others.

Our willingness to pay high prices has been extremely rewarding. We can reflect on the collection after fine collection which we have owned. We have purchased intact an amount of coins and collections unequalled by any other rare coin dealer in the world, to our knowledge.

WHEN YOU DECIDE TO SELL IT WILL *PAY* YOU TO SEE EMPIRE FIRST!

Empire's method of buying: After examining your coins we will make a firm cash offer for your coins. If our offer is accepted (over 90% are) you will be paid immediately. Simple, isn't it?

When you sell to Empire for immediate cash there is no waiting for your money, no uncertainty of what your coins *might* bring at auction or on consignment and no commissions to pay. When Empire makes an offer you are under no obligation to accept. In other words, you have nothing to lose and everything to gain. We believe that you, like many other collectors, will like the Empire way of doing business. One more thing: when you sell to Empire you are assured of a confidential transaction. The price paid and other details will be held in strict confidence.

Thinking of selling? Then contact EMPIRE today. A friendly and expertly qualified Empire representative will gladly discuss with you the sale of your numismatic holdings.

COIN MEDALS . . .

The Magnificent Medals of Real Numismatic Interest

A series of beautifully sculptured, numismatically designed medals commemorating famous coin designers. The Augustus Saint-Gaudens and Victor D. Brenner medals, the first two in the COIN MEDALS series, are now ready for immediate shipment, and the Charles E. Barber medal will be ready in June.

COIN MEDALS are sculptured in very high relief on both obverse and reverse by master artist Robert Schabel, and quality struck by The Metal Arts Company of Rochester, New York. The obverse of every COIN MEDAL depicts the finest medallic work of the artist being commemorated, and the reverse, as shown above, symbolizes his work in coins.

COIN MEDALS are issued in bronze, and in a serially numbered pure silver issue not to exceed 5000. Each medal is three inches in diameter, and weigh close to a half-pound in silver, so they are not to be confused with ordinary coin size medals.

PRICES OF COIN MEDALS

The Augustus Saint-Gaudens Medal: Bronze, $5.50, or .....2 for $10.00
in serially numbered pure silver, in velvet lined case $35.00
The Victor D. Brenner Medal: Bronze $5.50, or .....2 for $10.00
in serially numbered pure silver, in velvet lined case $30.00
Each medal is accompanied by descriptive folder.

SPECIAL, above two medals in silver with **SAME SERIAL NO. ..$62.50**

PLASTIC HOLDER AS ILLUSTRATED is $7.00. Other holders; single holder, for medal only $4.00: double holder, shows obverse and reverse of medal, $7.00

Buyers of the Saint-Gaudens medal are assured they can obtain all future medals with the **SAME SERIAL NUMBER** for a more-valuable matched set, at the issue price of $30.00. You need send only a $10.00 payment now, your order will be acknowledged with your **RESERVED SERIAL NUMBER,** then pay $10.00 or more a month and each medal beginning with the Saint-Gaudens will be shipped as soon as paid.

We are still buying and selling coins, Half Cents to Gold, Paper Money, Commemorative Half Dollars, etc. For the best prices buying or selling, write us.

70% CASH ADVANCE

THAT'S RIGHT ! ! ! ! We will advance 70% of the fair retail value of your collection immediately upon receipt. We will then sell your collection at one of our forthcoming auction sales and you will receive your final settlement within 30 days after the sale. Our commission rates are always reasonable.

During the time that your coins are in our possession they are stored in our protected and insured vaults. When you receive your advance check, if for any reason you are not satisfied with the amount of the check, just return it and your coins will be returned postpaid.

In many cases our advance will be almost equal to others offer of outright purchase.

If you are not currently on our mailing list, just drop us a post-card with your full name and address and we will place your name on our catalogue mailing list.

REMEMBER — It is not too late to have your collection included in our next outstanding auction sale.

OUR SALES ARE USUALLY HELD IN
THE PARKER HOUSE

We are always in need of desirable numismatic material and will be happy to travel anywhere in the world to acquire it — either for auction or for outright purchase provided the value of the material warrants it.

NO COLLECTION IS TOO LARGE — We will furnish bank references upon request.

PROOF SET INFORMATION CARD — For beginners. Tells of the persons, legends, designs and history in current proof set coins. Folds to fit in mint envelope. The busy dealer may not always remember everything about the current coins or can take time to tell about them, so here's an information card to sell with the proof sets, to show new collectors things numismatists are interested in . . . 20¢ each; quantity prices for dealers.

CHARTER OAK POLICY

YOUR GUARANTEE OF SATISFACTION

March 1, 1963

Dear Fellow Numismatists:

CHARTER OAK COIN CORP. has entered its third year of service to the Numismatic fraternity. That we have been successful in our efforts is due to our growing list of satisfied mail order customers.

We realize that a great many numismatists do not care to order by mail for reasons too numerous to mention. We would like to state our policy, your guarantee of satisfaction, governing all mail order transactions.

1. We make every effort to ship your order within 24 hours and in no case do we exceed 48 hours.
2. All orders, where weight allows, are shipped via first class mail. All others are shipped insured parcel post, with notice of shipment via first class mail.
3. All coins are shipped with a 5 day return privilege. If you feel the coin is not properly graded or does not fit in your collection return it for full refund, with which we will include return postage. You must be satisfied or it costs you nothing.
4. If we receive your order and the coin you desire is no longer available we make an immediate refund. We do not hold your money while we look for the coin.
5. With your refund we suggest an alternate grade, if we have it available, and we hold this coin in your name for 10 days. This insures delivery to you.
6. If we do not have your coin or an alternate we post your requirements to our want list and notify you if we obtain one within 60 days. Again we hold the coin in your name for a period of 10 days.

We are rather proud of our record in that less than 1 coin in 200 is ever returned to us and we have many, many letters in our files congratulating us on our grading and our service.

YOU BE THE JUDGE – send us a few items from your want list and let us check our stock for you. Or, if you prefer, check our ads in this and other numismatic publications and send us a trial order.

Remember, you must be satisfied or it costs you nothing.

Cordially,

Dwight B. Roy, Jr.
President

LOW PRICES, QUALITY, QUANTITY

ONLY A FEW CENTS MORE, AND SILVER WILL REACH ITS MELTING POINT!

If the price of silver keeps rising, (and experts say it will), **IT WILL SOON PAY TO SAVE ANY SILVER DOLLAR** for its **silver content alone!**

Naturally, Silver Dollars of **NUMISMATIC VALUE** will rise **much** higher!

Since Dec. 1961, silver has risen from 92¢ per Troy oz. to $1.256! (as we go to Press). When it reaches $1.29 per oz., the silver content of a Silver Dollar will be worth more than a dollar! How soon will the Government, and Industry, accelerate the melting of Silver Dollars?

Watch the Financial Pages of your daily Newspapers, especially the WALL STREET JOURNAL, for detailed information and current prices of silver.

Instead of putting your money in the Bank, where it will earn about 4%, try storing Silver Dollars, particularly **Numismatic** Dollars, in your Safe Deposit Box at the Bank, and see how much they will be worth in a year, 5 years, 10 years! (And, in emergencies, you can always spend them!)

Since 1878, a little less than 424 million Silver Dollars were struck. In 1918, over 270 million were **melted!** How many more have been melted since then?

If every one in the U. S. put away only 2 Silver Dollars, the Dollars would "disappear"! The Banks would have none, the Federal Reserve would be depleted, even Reno and Las Vegas would be out!

So why gamble? Be SILVER DOLLAR WI$E!

START, IMPROVE or COMPLETE YOUR SILVER DOLLAR COLLECTION NOW!

We are sorry that we are compelled to discontinue our offer of a 10% Discount on orders of $50.

It has become just too difficult to replace or replenish a stock of numismatic coins.

During the past month or two we have filled many orders at no profit, just to keep the customer happy and to back our ads.

We shall **always** maintain our high **QUALITY!** We shall maintain our low prices as long as we reasonably can, and try to be at or near the lowest on the market.

We will still offer the 10% discount on Silver Dollars, singles and rolls, in all grades, temporarily. But, this too can no longer be an indefinite offer, so it would be wise to buy your dollars now.

We are adding, and training new personnel, and the service will be improving every day.

BRILLIANTIZE

MAKES COPPER, SILVER, OTHER COINS BRILLIANT INSTANTLY . . . *Safe for proof coins*

"It is really the best to brighten up a dull uncirculated coin like we find so many of in rolls these days." — St. Louis.

"After having tested your product for about a month, may I add my name and my partners to the growing list of people who sing your praises. Never before have I seen a chemical do the job of lifting surface dirt off a coin and keeping it off as yours does. We wish to stock this item and use it. BRILLIANTIZE is better than anything else on the market — Believe me. I've tried them all! My partner and I have two large stores." — New York.

"I was agreeably surprised with the excellent results I have had with some badly corroded Indian and Lincoln cents. BRILLIANTIZE is all you advertise that it is." — California.

"I was very much satisfied . . . BRILLIANTIZE is by far the best I have ever tried."—Mass.

Each kit consists of a booklet of instructions, applicators, a bottle of No. 1 Brilliantize which removes tarnish instantly, and a bottle of No. 2 Brilliantize which makes the brilliancy long lasting. No. 2 Brilliantize also cleans very dirty and spotted coins. Brilliantize kits are complete, compact, well sealed and very convenient to use. There is nothing more to buy.

Every Confederate collector should supplement his February 17, 1864 Notes with a set of prints of the designs originally intended for the backs of Notes of that issue — the "Chemicograph" backs:

ITEM 5:
Six "Chemicograph" prints in colors, $5, $10, $20, $50, $100 and $500 denominations. Interesting designs, all different, unlike the plain designs actually used.

Shipments of English plates ordered by the Confederacy mysteriously vanished, probably seized in the Union blockade. These prints were struck from the only set of original plates that has been found. MODERN FOREIGN COINS

There are few dealers who pay any attention to low-priced foreign minor coins, because the profit is low and handling costs are high. Here is one dealer who specializes in modern foreign coins, and who feels that low-priced foreign coins deserve the same care and attention as do the high-priced coins.

I have many coins for the beginning collector, but many of the largest collectors of foreign coins are on my mailing list and buy regularly from me.

Price lists are issued each month, covering new issues, recent additions to stock, and other interesting foreign coins. If you haven't seen this list, please write for it — no charge, of course.

GIANT AFRICAN MANILLAS

Used in darkest Africa as Barter Media as early as 1500 A.D., these Very Rare native wrought copper Giant Manillas are missing in majority of Museums and outstanding Odd & Curious collections. Those in the Chase Money Exhibit were believed to be the only ones in America. However, we were indeed most fortunate to acquire 8 of these great Rarities in Dec. 1961. One is in our Primitive Monies Collection. The other 7 pieces we will sell, one to a customer, at the low price of 69.50

MANILLAS — RING MONEY

This is the very common African bronze ring money — a small (about size of a bracelet) form of exchange . . . 8 to 10 would buy a good slave and each was worth a big elephant tooth. Special 2.75

AFRICAN ARMLETS & ANKLETS

Heavy native-wrought iron or brass (not wire coil) unusual form of money used by the tribes of Cameroons and Congo. These are available in two sizes, just a few of each:

FLEXIBLE COPPER RING MONEY

Ornamental type used by the Katanga tribes of Belgian Congo. Schulman's Cat. Lists at $10. Special price 6.50

GIZZI PENNY

Native-wrought twisted iron penny — the coin with a soul. We just received an air-freight shipment from our agent in Liberia . . . while they last, each 3.00

FISH HOOK MONEY

Larin, heavy doubled silver wire, a highly prized money for over 1,000 years in the Far East. Scarce item 9.00

SHELL MONEY

Shell-money strings, 10" length. From the Gilbert and Solomon Islands. Very old form of primitive money. Special 9.50
